

## **Lookin' For Trouble**

**Ill wind blow no reason  
Ill wind show no proof  
What good are words without meaning?  
What good are words without truth?  
Weapons of mass deception  
Tear falling from the sky  
Like fodder for the minds of the masses  
Pull the wool over our eyes**

**I'm not lookin' for trouble  
I will tell you no lies  
I'm not asking for more than is needed  
To see beyond this disguise**

**Hell and harpoons on the high seas  
All those bad men on the loose  
Licking their lips and raising the finger  
Calling it science and research  
But there's no word from Captain Ahab  
On this whale of a tale  
When the proof is in the soup and the sushi  
And the truth is up for sale**

**I'm not lookin' for trouble  
I will tell you no lies  
I'm not asking for more than is needed  
To see beyond this disguise**

**They say the truth goes out the window  
When there's a dollar to be made  
They say that greed is the New God  
Followed blindly to the grave  
They'd put a pipeline through paradise  
They'd put poison in my well  
All to get them some of that coal seam gas now  
Fires are burning at the gates of hell**

**I'm not lookin' for trouble  
I will tell you no lies  
I'm not asking for more than is needed  
To see beyond this disguise  
Weapons of mass deception  
Tears falling from the sky  
I'm not asking for more than is needed  
To see beyond this disguise**
