

## **On My Way**

**Here today but I don't know about tomorrow  
I can't say what, what the future will bring  
I'm on my way but will that old future ever get here?  
No point waiting for tomorrow to come**

**Is that the past so close behind now?  
Or just some pictures in my mind**

**I'm on my way from the past into the future  
I won't look back as the stars begin to fall  
I'm on my way as your world begins to crumble  
And now that I've landed I am standing here now**

**Just don't get it, gonna miss that smiling face  
You'd say forget it, now the penny starts to drop  
Almost said it, we'll be together soon enough now  
No point waiting for tomorrow to come**

**Is that the future up ahead now  
Or just those pictures in my mind**

**I'm on my way from the past into the future  
I won't look back as the stars begin to fall  
I'm on my way as your world begins to crumble  
And now that I've landed I am standing here now**

**I'm on my way there's no past and there's no the future  
I won't look down as the stars begin to fall  
I'm on my way and the best part of the picture  
Is now that I've landed I am standing here now**
