

Train Of Thought

**Here's that train again, rollin round my head
Can't seem to find a place where I can get some rest
From myself
Get a little rest from my own mind
This train of thought of mine
Keeps rollin on and rattlin down that line**

**This train won't let me off it's got me on the run
It's paintin pictures of the things I should have done
It's playin movies of disastrous and desperate situations
This train of thought of mine
Keeps draggin me from station to station**

**No matter how I try, can't find a way to turn this thing around
Must be some kind of switch so I can finally shut the dam thing down**

Solo

**Standin at the crossroads, those empty carriages keep rollin by
I wonder where they're from I wonder where they go .. I wonder why**

**Here's that train again it's clangin 'round my brain
Makin me nervous and it's drivin me insane
Night and day
Makin no sense most of the time
This train of thought of mine keeps rollin on and rattlin round
These tangled troubled thoughts of mine are clangin and a bangin on
This train of thought I'm traveling on keeps rollin on and rattlin down that line**

**Train of thought of mineWoo wooo
Rollin round my mind Woo wooo**
